**Additional Electrical Power
Order Form**
INATS® - The Tradeshow for Conscious Living
June 7-9, 2019

Will you need a Power Boost?

Your INATS Booth package **INCLUDES** one 5 Amp/500 Watt outlet with power strip per booth. (A 5x10 or 10x10 includes one outlet, a 5x20 or 10x20 includes two outlets, etc.)

This is enough power for most exhibitors.

We encourage everyone to use this electrical to throw some light on their product. You may use your own lights, or rent them through Coast to Coast TSS.

Their pricing is great for lights! See the Coast to Coast Exhibitor Kit page 9.

This is an inexpensive way to highlight your product and attract buyers to your booth.

INATS is taking orders and collecting for additional power as PSAV will offer better pricing to you if we do it this way. To order ADDITIONAL power, use this form.

In addition to the electrical power included with the booth, please provide:

_____ additional 500 watt/5Amp outlets X \$95 each = Total: _____
(includes Power Strip and Extension Cord)

Orders must be received by Friday, May 24, 2019 for this rate. After that, and on-site, rate will be \$150.
