Where do I feel lack? Do I have plenty of food, water, and financial stability? Are there helpful people in my life?

Call on the Angel of Abundance and Prosperity when you perceive a deficiency in some aspect of your life. Take time to uncover how and why you feel like you don’t have enough or that there isn’t plenty for you and those around you. Be as specific as possible. Once you’ve identified the lack, call on the Angel of Abundance and Prosperity to help you see how you can improve the situation. Remember to ask for the motivation to take action to change your reality—or your perception of reality. Partner this angel with the Angel of Gratitude to amplify the awareness that you actually do have plenty of everything you will ever need and to increase your ability to share your abundance.
